

Copenhagen Climate Challenge

Conference on December 8th and 9th at the
Dansk Forfatterforening, Store Strandstræde 6, 1401 København K

Our Chairman

Craig Rucker: Is the Executive director and Co-Founder of CFACT. He has worked extensively on numerous environmental issues.

Our Speakers

Professor S. Fred Singer: is now President of the Science and Environmental Policy Project. He is internationally known for his work on energy and environmental issues.

Lord Christopher Monckton: is chief policy advisor to the Science and Public Policy Institute and was policy advisor to the UK Prime Minister Margaret Thatcher.

Professor Ian Plimer: is Professor of Mining Geology at the University of Adelaide and Emeritus Professor of Earth Sciences at the University of Melbourne. He has recently published a definitive book on the Earth's Climate Heaven and Earth.

H. Leighton Steward: is a geologist, environmentalist and sometime energy industry executive. He is currently engaged in explaining the benefits of CO₂ as it relates to the eco-systems of life on Earth.

Professor Niklas Nils-Axel Morner: is the former head of the Paleogeophysics and Geodynamics Department at Stockholm University. He is an expert on world sea levels and has conducted an exhaustive study of the Maldives Islands. He has recently returned from Bangladesh where his research on sea levels has produced some surprising results.

Professor Cliff Ollier: is a geologist and emeritus professor at the School of Earth and Environmental Studies, University of Western Australia. He is an expert on Glaciers and Ice Caps.

Martin Ågerup: is the President and CEO of the Centre for Policy Studies (CEPOS) based in Copenhagen. The Centre has carried out a study of the Danish experience of wind turbines. He is one of the most cited opinion leaders in Denmark.

David Gress: is a Danish American historian who was awarded a doctorate in medieval history from Bryn Mawr College. He was Professor of the History of Civilisation at Boston University and a Senior Research Fellow at the Hoover Institute.

Stuart Wheeler: is a British businessman who first practiced as a barrister and later became an investment banker. His company IG Index pioneered spread betting. He has long been active in British politics and is a passionate campaigner against the alarmist climate change industry. He is a well known philanthropist and supports AI and Human Right Watch.

The controversy concerning Anthropogenic Climate Change is not settled, the debate is emphatically not over and there is no scientific consensus. We therefore challenge the media, the politicians and all policy makers to give a fair hearing to the dissenting views of the speakers at our conference on the 8th and 9th December. In key fields regarding the Earth's climate, world renowned scientists will present their findings. At the very least it proves that the science is not settled, if not that the scientific conclusions of the IPCC are wrong. Please take part, ask questions and form your own opinions.

.....
The Copenhagen Climate Challenge Conference is arranged by Climate-Sense in association with CFACT and the NIPCC

Copenhagen Climate Challenge

Conference on December 8th and 9th at the
Dansk Forfatterforening, Store Strandstræde 6, 1401 København K

Conference Programme

Tuesday 8 Dec.	10.00am	Doors open/coffee	
		10.30-11.30	Professor Nils-Axel Morner
		11.30-12.15	Professor Cliff Ollier
		12.15-1.00	Stuart Wheeler
		1.00 - 1.30	<i>Light lunch provided</i>
		1.30 - 2.30	Professor Ian Plimer
		2.30 - 3.15	Professor Henrik Svensmark
		3.15 - 4.00	Film by Lars Oxfeldt Mortensen
Wednesday 9 Dec	10.00am	Doors open/coffee	
		10.30-11.30	Professor S Fred Singer
		11.30-12.15	Martin Ågerup
		12.15-1.00	<i>Light lunch provided</i>
		1.00 - 1.45	Professor David Gress
		1.45 - 2.45	H Leighton Steward
		3.00 pm	Lord Christopher Monckton
